Part 2 · Welcome audio script (welcome-audio.mp3, ~2 minutes)

Record in a quiet room, warm and unhurried. This audio is embedded on the Course Home page for students who prefer to listen.

Hello, and welcome to Baby Steps: Your Health Journey Toward Conception. I'm Cynthia Myers Morrison, and I'm so glad you're here.

Over the next twelve weeks we're going to do something quietly remarkable. We're going to use the months before a baby, the window that science now tells us shapes a child's health in ways that can reach the next generation, to build a foundation of nutrition, movement, calm, a cleaner home, and deeper connection. Not all at once. One baby step at a time.

Here is how to begin. Underneath this audio you'll find the Welcome Guide. Read it; it's your map. Then complete three small pre-actions: introduce yourself in our private group, add our support email to your contacts, and answer the four-question pre-course survey. Your answers to that survey become your compass. We'll return to them together at the very end.

And one more thing before you go. If you've arrived carrying guilt, about your weight, your cravings, or how long this has taken, set it down at the door. Guilt has never grown a healthy baby. Grace has. Everything here is built on grace over guilt, small steps over grand gestures, and real science delivered with a warm heart.

You are not behind. You are exactly on time. I'll meet you in Module One.
