

Toxin Detox Challenge Tracker

Seven days, seven areas, honest monitoring, and the six habits you'll keep · Module 5, Training 7

How it works

One area a day. Buy the swap before you throw the old thing out. Reuse old plastic for dry goods and screws (just not food + heat). Don't chase perfection; a lower-load home is built by the swaps you keep. Many of these chemicals clear within days once you stop adding them (an organic diet cut urinary pesticide metabolites 60–95% in six days: Hyland et al., *Environmental Research*); long-lived ones (PFAS, lead) are what filters are for.

4	Air	windows 10 min a.m. and p.m.; extractor when cooking; retire the freshener and scented candle; purifier on tonight		☐				
5	Clean-up	one room with the three homemade cleaners; damp-dust; HEPA vacuum; bedding hot; shoes- off rule starts; before/ after photo		☐				
6	Water	read the report; set up the pitcher/filter; drink your target from filtered water; receipts handled less; no bottles in the hot car		☐				
7	Reflect + maintain	reflection below; choose maintenance habits; share results; celebrate with something that isn't cleaning		☐				

Men, every day: no sauna · no hot tub · laptop off the lap · phone out of the front pocket. ☐☐☐☐☐☐

Monitoring honestly: some people notice fewer headaches, better sleep, calmer skin within the week; others feel nothing they can name, and the changes still count. Don't over-attribute; the checklist is the honest measure.
