

Family Wellness Self-Assessment

Your baseline across the five pillars · Module 1, Training 1

How to use this

This is a starting line, not a grade. Answer honestly for *the last two weeks*, not your best week ever. If you have a partner, each of you completes your own copy; compare afterwards and notice where you are strong for each other. The same questions appear in the online Wellness Quiz (link in the platform, forms.gle/wellness-quiz), which scores itself and earns 50 XP.

Scoring: 1 = rarely or never · 2 = sometimes · 3 = most days · 4 = nearly always

Reading each pillar: 5–9 = *seedling* (this is a pillar to strengthen first; the module for it will feel like relief) · 10–14 = *growing* (real habits are there; consistency is the work) · 15–20 = *rooted* (a strength you can lean on and share).

Your strongest pillar: _____ Your most neglected pillar: _____

Journal your baseline (30 XP)
