

Clean Recipes

Five recipes, the Dirty Dozen and Clean Fifteen, the baking-soda wash, and a budget shopping plan
· Module 5, Training 2

The two lists (updated yearly by the Environmental Working Group from government residue testing; check the current year's version)

BUY ORGANIC (TYPICAL "DIRTY DOZEN")

strawberries · spinach · kale/collards · grapes ·
peaches · pears · nectarines · apples · bell & hot
peppers · cherries · blueberries · green beans

CONVENTIONAL IS FINE (TYPICAL "CLEAN FIFTEEN")

avocados · sweet corn · pineapple · onions · papaya · frozen
sweet peas · asparagus · honeydew · kiwi · cabbage ·
mushrooms · mangoes · sweet potatoes · watermelon · carrots

Evidence: high-residue produce ↔ lower pregnancy and live-birth probability in ART; low-residue produce showed no such link (Chiu et al., *JAMA Internal Medicine*, 2018). An organic diet cut urinary pesticide metabolites 60–95% within six days (Hyland et al., *Environmental Research*, 2019). **Never skip vegetables because organic is unaffordable:** a full plate of washed conventional produce beats a small plate of organic.

The wash

Baking soda: 1 teaspoon per 2 cups (500 ml) of water. Soak 12–15 minutes, rinse, dry. Removed far more surface pesticide than water alone (Yang et al., *Journal of Agricultural and Food Chemistry*). Peel Dirty Dozen items when you can't buy organic.

Kitchen rules that go with every recipe

Store and reheat in **glass or stainless steel** · plastic only cold, never in the microwave · cool food before it goes in a container · wooden or steel spoons in hot pans · parchment or a plate instead of plastic wrap · jarred or dried instead of canned where you can · filter the water you cook with.

Recipes

1. CLEAN-SLATE SALAD (SERVES 2)

Organic spinach and arugula (2 big handfuls) · 1 avocado, chopped · ½ cup frozen organic blueberries, thawed · 2 tbsp pumpkin seeds · 1 tin sardines or 1 jar wild salmon · dressing: 2 tbsp olive oil, juice of ½ lemon, pinch of salt. Toss; serve.

2. TOXIN-FREE SNACK PLATE (SERVES 1)

1 organic apple (baking-soda washed), sliced · 1 tbsp almond butter (nuts + salt only) · 1 hard-boiled egg
· a few olives. Replaces the packaged bar and its wrapper.

3. JARRED-TOMATO LENTIL SOUP (SERVES 4, FREEZES IN GLASS)

1 tbsp olive oil · 1 onion, 2 garlic cloves, 2 carrots, diced · 1 tsp cumin · 1 cup dried red lentils, rinsed · 1 jar (≈700 g) passata or chopped tomatoes · 4 cups water or broth · salt · squeeze of lemon. Soften the vegetables 5 min, add spices, lentils, tomatoes and liquid; simmer 20–25 min. Yogurt at the table.

4. FROZEN-ORGANIC SMOOTHIE (SERVES 2)

The Baby Steps smoothie (Module 2) with frozen organic berries and frozen organic spinach. Frozen organics are usually cheaper than fresh conventional and are picked ripe.

5. SHEET-PAN DINNER (SERVES 2)

Clean Fifteen vegetables — 1 onion, ¼ cabbage, 1 sweet potato, ½ head cauliflower, chopped · 2 wild salmon portions or 1 block firm tofu · 2 tbsp olive oil, salt, herbs. On parchment, 200 °C / 400 °F, 25 min (add the salmon for the last 12–15).

Budget shopping plan (30 XP: shop toxin-free)

MOVE	WHY	TICK
Frozen organic berries and greens	best value in the store; picked ripe	☐
Organic money on the Dirty Dozen only	where residue matters most	☐
Dried beans and lentils	cheap; no can lining	☐
Seasonal produce	cheaper, often local	☐
Store-brand organics	same certification, lower price	☐
Jarred tomatoes, glass containers	swaps the can and the plastic	☐
